Gustavus, AK 99826

Re: Gustavus Bulk Fuel Facility

Dear Mayor Berry,

We received your letter dated September 26, 2010 regarding concerns about the bulk fuel facility project nearing completion in Gustavus. We met with the project manager at Alaska Energy Authority to discuss the project and review the business plan.

In review of the business plan and the subsequent letter, there appear to be significant misunderstandings regarding components of the project and the business plan submitted to our office.

In light of your recent election, we request that the business plan be thoroughly reviewed by your members before we schedule a meeting. For your convenience, these documents are saved on the CD attached to this letter.

After that review, please let us know if the concerns identified in the letter remain and if a meeting is necessary. We are holding the business plan signature to hear from you, so your timely response is requested.

Please do not hesitate to contact me with any questions at (907) 271-1414 or ddaniels@denali.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Denali L. Daniels", written over a large, loopy flourish.

Denali L. Daniels, MPA
Senior Energy Program Manager

CC: Mayor James Mackovjak
Dick Leavitt, Gustavus Dray
David Lockard, Alaska Energy Authority
